50% Off when paid in US Funds!

Fishing 2025

- What is old is new again—Walleye were caught by a few groups in 2025 using the old “Erie Dearie” lure. I started searching my old tackle boxes to see if I had any left. Didn't find any, I was also disappointed to find that our local Cabela's doesn't carry them. If you have one bring it along and give it a try. Ha - of course this wasn't the only thing used to catch Walleye!
- The larger Northerns were mostly caught trolling for Walleye. A variety of crank baits were used for this.
- The population of Zebra mussels is declining and the Smallmouth bass being caught are larger. Turns out Zebra mussels are a food source for smallmouths, who knew?
- In 2025, Largemouth Bass continued to reign supreme in numbers and size.

Smart TVs and WIFI

- With the installation of Starlink, T-Bell now has excellent free WIFI for everyone to enjoy. As a result, we were able to install smart TVs in each cabin. Most sat idle because the fishing is so good but on those bad weather days the guests enjoyed the addition of these TVs.

	<p>Philadelphia Fishing Show - 2026</p> <p>Friday, Jan 9th to Sunday, Jan 11th</p> <p>Hope to see you there!</p>
---	---

If you haven't made your plans yet for 2026, we would love to have you as our guest. There are still many openings left in 2026. Please book soon so that you won't be disappointed, give us a call at 613-623-3897 or e-mail tbell@tbellcabins.com.

Cheers from White Lake!

Doug and Kate
